"One Night (feat. HAYLEY)" is the featured single by KUOSA

Electronic Music Producer and DJ from Sydney, Australia, **Kuosa** releases his latest single "**One Day (feat. HAYLEY)**". His music and shows infuse melodic sounds with a chilled party vibe, intent on creating an energy capable of uplifting any audience and getting the good times rolling.

Expanding on his diverse influences with his latest track "**One Day (feat. HAYLEY)**", features elements of R&B and club-pleasing Pop, suggesting the talented producer has only begun to show where he is capable of going.

Speaking on the creation of the song, **Kuosa** says, "I write most of my music on guitar generally then jam it out on piano and move it into Ableton, which is how '**One Night**' came about. Like all my songs I have a good idea of what I am going for when I begin but experimentation also plays a huge part in the process. I wanted '**One Night**' to have the melodic sound I love and incorporate my spin on the R&B I grew up listening to. Hayley's vocals were the final addition to the song. After sending her the track she had the basic melody down and after a few days of back and forth with lyrics ideas. It only took a few hours in the studio to lay everything down."

Already having amassed over **65K streams** on his Soundcloud, **Kuosa** is ready to find an even larger audience. He's reached radio listeners throughout Australia on his most recent self-released track "**Take Me Down (feat. Sami Constantine)**".

Reviews and support from triple j's very own station producer **Nat Tencic** followed featured events on **triple j Unearthed** and continued radio airplay. **Kuosa** is quickly building a name for himself amongst the Australian and International music scenes.

Fresh of the back of live shows with the likes of **Hayden James & Touch Sensitive**, **Kuosa** has an exciting year of new music and live shows in the works.
